Qyrant

COMPANY PROFILE

QYRANT TECH SOLUTIONS - FZCO

Software built for the aviation world.

A Dubai technology company. Aviation products, plus the software and IT services that keep businesses running.

What we do.

Qyrant builds automation, AI and SaaS products, and the software and IT services that keep businesses running. Pulse by Qyrant is our first product, made for aviation maintenance, and Parts by Qyrant is a full business system for aviation.

01	**Pulse by Qyrant**	The aircraft and engine lifecycle platform for airlines, MROs, engine shops and lessors.
02	**Parts by Qyrant**	The full aviation business system: CRM, sales, procurement, warehouse management and books, in one platform.
03	**Software development**	Custom web and mobile software, integrations and AI automation, built around your existing workflows.
04	**Website development**	Fast, secure company websites, in Arabic and English where needed, with hosting, analytics and ongoing updates.
05	**IT infrastructure and support**	Microsoft 365, user accounts and devices, networks, backup and security, and a support desk.

Vision

Software built for the aviation world: one connected system for every aircraft, engine and part, and the business around them.

Mission

Replace scattered tools and spreadsheets with dependable software. Agree scope and price up front, and stay on after launch.

HOW WE WORK

01 Listen
Understand how your business works.

02 Design
Agree scope, timeline and price before work starts.

03 Build
Build or set up the solution.

04 Support
Stay with you after launch.

Pulse by Qyrant.

The aircraft and engine lifecycle platform for airlines, MROs, engine shops and lessors. One record for every aircraft, engine and part, with inspections, engine health and QEC kits in the same place.

01
Asset Management
Fleet, engines and parts in one register

02
Aero Inspection
Inspections on any device, offline

03
EGT Margin
Engine health tracked over time

04
QEC Inventory
Kits tracked part by part

05
Engine Passport
Records ready to share

Works offline
Findings, photos and sign-offs saved on the device and synced when the connection returns.

One record
Aircraft, engines, parts and inspections linked. History follows the asset.

Traceable
Every change logged. The audit log cannot be edited.

Secure by design
Multi-factor sign-in, data isolated per customer and nightly off-platform backups.

Built for the aviation world. For airlines, MROs, engine shops and lessors worldwide. Check. Confirm. Move on. Product details: qyrant.com/pulse.

Parts by Qyrant.

A full business system for aviation parts and component businesses. One record connects the customer, the part, the order, the stock and the books, so nothing is typed twice.

01 CRM
Accounts, leads, opportunities, tasks

02 Sales
Quotes, orders, invoices, approvals

03 Procurement
Suppliers, purchase orders, vendor bills

04 Warehouse
Scanning, stock, kits, quality release

05 Books
Ledger, VAT, bank reconciliation

Traceable stock

Each unit tracked by location, status and history. Quality release, suspected-part quarantine, kits and teardowns built in.

Automatic posting

Sales and purchasing documents post to the ledger, with an exceptions queue for anything that needs review.

Controlled access

Roles and permissions, quote discount approvals and an audit log.

Repairs, portal and reports

Repair work with quality release, customer and supplier portal access, cross-module reports and an assistant for stock, prices and quotes.

Built for aviation. Exchange and loan orders, serial-tracked units and multi-currency books are part of the system, not add-ons. Full brochure available on request: info@qyrant.com.

The team.

Delivery experience from aviation support, telecoms and aircraft and engine asset management.

FOUNDER

Amr Basyouny

Founder & CEO

More than 12 years delivering IT programs across the Middle East and North Africa, in aviation support and telecoms.

CO-FOUNDER

Waleed Sirrag

Co-Founder & CTO

Accomplished CTO and FAA-licensed A&P executive with 16 years of expertise in aviation asset management, leasing, trading, MRO, and technical operations. Proven leadership supporting 100+ aircraft and 300+ engine transactions, delivering technical excellence and strategic commercial value.
